# About Us

---

We are a UK based global humanitarian organisation established in April 2017. Our focus is to provide emergency assistance and alleviate poverty by empowering local communities through various core programmes.

Most of our work to date has been centred towards emergency response, ongoing recovery and rehabilitation from natural disaster devastation in Indonesia.

We achieve our objectives by working alongside partner organisations.

## HUMAN AID INITIATIVE'S **VISION**

We aim to be a strong, reliable and effective charity organisation providing aid and essential support for emergency relief and poverty alleviation.

## HUMAN AID INITIATIVE'S **MISSION**

We have been delivering aid through multiple projects and will continue to assist disadvantaged communities on an ongoing basis. We are committed to ensuring that funds donated are targeted towards productive programmes which over the long term allow individuals and communities to become self- sufficient.

# Where We Operate

Human Aid Initiative operates in several countries including Indonesia, Bangladesh, India, Jordan, Nepal, Pakistan, Somalia, Sri Lanka and Turkey.

# Our Objectives

This is an integrated, comprehensive and long-term vision of projects through a number of empowerment programmes at an individual, family and community level. It aims to improve overall quality of life and achieve sustainable prosperity for our beneficiaries.

This program includes Emergency Relief and Recovery Response. Services are on hand to assist victims of natural disasters and continues onto longer-term assistance such as rehabilitation, recovery and reconstruction.

This program is aimed at increasing the knowledge and skills of children from disadvantaged backgrounds through the provision of education and training, scholarships and learning needs.

# Our **Work**

Over the past year Human Aid Initiative has worked on a number of Initiative programmes.

## COMMUNITY **EMPOWERMENT PROJECT**

**T**his project simultaneously focuses on economic, environmental and public health. Our target adopts the Sustainable Development Goal (SDG) as set out by the United Nations. We have five main initiatives through this programme which include;

### Food and **Nutrition**

**Aim:** To reduce child malnutrition  
A number of initiatives are set which include education and training, provision of daily/weekly supplements, home visits and consultation.

## Water Wells

**Aim:** To improve access to clean water  
This programme is to help a poor local communities build water reservoirs. The infrastructure scope of work will include drilling a one hundred metre deep water well and distribution through pipelines that will serve at least 50 households per water well.

## Sanitation

**Aim:** To improve access to basic sanitation  
This initiative involves health and sanitation training for the local community, the provision of education for primary healthcare workers to carry out a local campaign on environmental sanitation and to create collective self-built facilities for local communities, homes and public.

## Small Business Grant Scheme

Aim: To create capability for families to generate additional family income

These series of activities involve supporting low income families with business planning strategy, implementation, coaching and mentoring.

We recommend this program to corporates or partners who would like to see impact and how the potential of local skills can be boosted through education, training and coaching to help bring individuals and families out of poverty.

## Integrated Village Industries

Aim: To create integrated village industries using existing local skills potential

With your support this programme will provide a wider impacts to a local community. There are areas and villages which are endowed with natural resources or traditional skills which are key for this work. Together with our overseas partner, business plans and strategies will be carefully assessed and followed by building mini plan site or mass production. This programme also includes quality control monitoring and product certification.

We have preliminary assessed three villages in various locations for potential project implementation.

## EMERGENCY RELIEF & **RECOVERY RESPONSE**

### **#LoveRohingya**

This was our first Emergency Relief Response program for Rohingya refugees who fled Myanmar to Bangladesh in 2017. We distributed food packages and hygiene kits to 1,000 refugees in Cox Bazaar camp. We also distributed food aid during our Ramadan Campaign.

## #PrayForLombok

Over 500 people died and 1,000 injured when three consecutive earthquakes struck Lombok in August 2018. This was the largest and strongest earthquake to have hit Lombok in recorded history.

The aftershock displaced more than 417,000 people to life in camps. Hundreds of school buildings were damaged and children are in desperate need to resume their education.

We sent emergency aid in September following the earthquake. Our team sent food aid to the Gunung Sari district in west Lombok and clean water supplies to the Central Dopang street distribution point to 1,300 households.

**Lombok** Island  
(Indonesia)

**Mataram**

## Our Next Objective for Lombok

**H**uman Aid Initiative focuses on recovery programmes which assist children back into normal education in particular those children who lost loved ones after the earthquake. The support will include psychosocial aid, school fee payment, food and healthcare for each child. We are currently looking for donors who would like to support these children through our Sponsor A Child programme.

**Sulawesi** Island  
(Indonesia)

● Donggala

● Palu

## #Palu-DonggalaNeedsUs #IndonesiaTsunami

This was one of the world's most tragic natural disaster which took place in 2018. At least 2,100 people lost their lives and thousands were injured when a devastating earthquake and tsunami hit the Indonesian island of Sulawesi. Three main regions were heavily affected; Palu, Donggala and Sigi.

The disaster left a trail of destruction and over 223,000 people were displaced in these regions.

With support from our donors, partners and local communities in the UK we were able to help those in desperate need with food aid, shelter kits, medical assistance, hygiene kits and the set up of an emergency community kitchen at several refugee points.

Our emergency relief does not stop here. Our emergency disaster initiatives continued with early response and recovery programmes for Indonesian tsunami victims. Human Aid Initiative were able to construct emergency bathroom units and provide tsunami survivors with access to clean water in two districts.

The devastation of the earthquake and tsunami also impacted children's education. Many schools were badly damaged and children were unable to attend school for a significant amount of time.

With the generosity and enormous support of our donors, our recovery programme extended to education by building four Initiative Schools for primary school children in the heavily affected villages of Jono Oge, Lasoani, Rarapadende and Pesaku.

Bandar Lampung ●

**Sumatra** Island  
(Indonesia)

○ **Jakarta**

**Java** Island  
(Indonesia)

### #SundaStraitTsunami

The second tsunami hit Indonesia again within the same year. The aftermath affected coastal towns along the Sunda Strait between the islands of Java and Sumatera.

**437**  
people died

**14,059**  
were injured

**33,721**  
people were displaced

Meanwhile the  
excessive damages  
were across

**2,700**  
houses

**147**  
vehicles

**510**  
boat and ship unit

We provided food aid, blankets and hygiene kits to the victims. Our initiative “pop up” kitchen has served hundreds of tsunami survivors with drinking water and emergency food supplies along the western coastal area of Pandeglang in the Banten province.

---

## Sponsor **A Child**

---

This is a long-term initiative program for children who come from disadvantaged backgrounds.

**W**e commenced our first year of child sponsorship in 2018 supporting children across various location in Indonesia who are currently living in foster care and orphanages.

We focus on helping children whom are

- without parental care
- living in extreme poverty
- displaced due to natural disasters
- in high risk of neglect/  
exploitation/abuse/violence and  
child trafficking

Human Aid Initiative provides food, education grants and access to medical care. We also provide after school activities for our beneficiaries.

There are thousands of Indonesian children who sadly lost their parents during the three major natural disasters in 2018 and have become orphans. We have currently over 300 registered children awaiting sponsorship.

# Seasonal Programmes

Each year we also run two programmes over Ramadan and Eid ul-Adha.

## Ramadan

We run a number of programmes during the holy month. We provide iftar meals, food aid, zakat and fidyah to the poor and needy as well as providing educational support to orphans.

Our Ramadan key themes this year were #FoodAid, #IftarZakatFidyah and #SponsorOrphan.

There were over 3,000 beneficiaries from this year campaign.

## Qurbani

This programme is carried out during the pilgrimage season by distributing sacrificed qurbani meat to the poor and needy.

We carried out our first qurbani programme in September 2018. We distributed 200 qurbani packages to families in rural areas of East Indonesian regions such as Maluku and West Papua that can only be reached by foot from approximately 3km to the nearest village.

A large percentage of qurbani packages was also distributed to the survivors of the Lombok earthquake last year.

## Our Overseas **Partner**

To successfully achieve our mission and objectives in running all of our programmes, Human Aid Initiative believe in effective participation and collaboration.

We work alongside PKPU Human Initiative\*, our overseas partner in implementing projects and distributing relief funds. PKPU Human Initiative is one of the largest charity organisations in Indonesia with more than nineteen years of experience in delivering aid and emergency relief locally and also to other countries. It is one of a few charities that has access to remote and severely affected areas in Indonesia enabling them to deliver emergency relief and rescue to casualties and survivors.

\* PKPU Human Initiative is registered as a NGO with special status from the UN Economic and Social Council in 2008. PKPU Human Initiative was registered in the EU in 2010 with EuropeAid ID No. 2010-CSD-1203198618.
